Mr. Steven T. Bevers
Ms. Sharon L. Bevers
Energy 4 A Cure Foundation
2257 North Loop 336, Suite 140, No. 329
Conroe, TX 77304

Dear Mr. and Ms. Bevers:

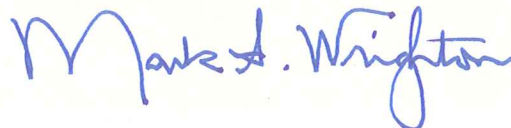

Thank you for Energy 4 A Cure Foundation's recent grant of \$29,000 to Washington University for support of CRV-RVCL research in the School of Medicine. Your generosity is truly appreciated.

Learning and discovery are what take place at research universities, and ours is an institution that values and encourages both. When this University was founded, St. Louis was the gateway to the American West. Today, learning and discovery represent our contributions to providing gateways to a brighter 21st century, gateways that could not be built without the support of friends like the Energy 4 A Cure Foundation.

Again, on behalf of all of us at Washington University, and especially those who will benefit from the research conducted with the support of this grant, thank you.

With best wishes for the New Year,

Sincerely yours,

Mark S. Wrighton
