Mr. Steven and Mrs. Sharon Bevers
Energy 4 A Cure
5000 Eldorado Parkway, Suite 150, #403
Frisco, TX 75033

Dear Mr. and Mrs. Bevers:

I was so pleased to receive your gift through Energy 4 A Cure to support Dr. John Atkinson's CRV research at Washington University School of Medicine. I am deeply grateful for your continued efforts to raise funds and awareness for this important research. It is wonderful to know that in your pursuit of greater awareness and research funding for CRV, you have inspired others like Ms. Katy Heater and Sarah Parsons to support this cause.

Research support is a priority for philanthropy at the School of Medicine. With changes in NIH funding, your contribution is especially critical to advancing the way Dr. Atkinson and his team decode the causes, and look for treatments and possible cures for CRV.

Again, thank you for your support of CRV research at the School of Medicine.

Sincerely,

Larry J. Shapiro, M.D.
Executive Vice Chancellor
for Medical Affairs and Dean
