Dear Mr. and Ms. Bevers:

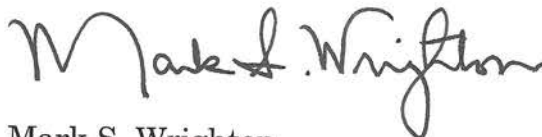

Thank you for the recent grant of \$30,000 from the Energy 4 A Cure Foundation to Washington University for support of Dr. John P. Atkinson's CRV-RVCL research in the Division of Rheumatology at the School of Medicine.

In an era of reduced federal spending for research and training, funding from organizations such as the Energy 4 A Cure Foundation is critical to our efforts to find solutions to urgent challenges confronting society in the 21st century. Washington University faculty and students produce new knowledge and discoveries that will improve the lives of people around the world. Your support helps transform their goals into reality.

Again, on behalf of Dr. Atkinson, all of us at Washington University, and especially those who will benefit from the research conducted with the support of this grant, thank you.

With best regards,

Sincerely yours,

Mark S. Wrighton
